

VEDIC MATHS IS SUCH FUN SAYS MATHS MAESTRO MINOO JOKHI

Posted on 24 August, 2020 | by yazdi | [One comment](#)

Isn't it amazing if you can calculate 47 multiply by 93 is 4371. And in a few seconds MENTALLY. And still better faster than a calculator. HUMAN COMPUTER Minoo Jokhi who has made his name in MATHEMAGIC CUM MEMORY DEVELOPMENT says it is possible.

Minoo loves to share Math Tricks. E.g. what is 65 multiply by 65. First multiply 5 and 5 which is 25 and take the first digit 6 and multiply it by the next number 7 and the answer is 42 and total answer is 4225. However, Minoo was not a child genius but someone who had a terrible childhood. He was so weak in his school days that he couldn't do simple tables even till 10 or add or subtract small figures fast. He had practically lost hope that he would ever do something in his life till his 10th std when an amazing transformation took place.

Being ridiculed by his teachers and all children around him; Minoo started to learn basic TABLES until 20. He would add and subtract bus numbers and car numbers. This soon became a Number Crunching Habit with Minoo. Encouraged by his mother Kety; Minoo soon started to love Numbers. His mother completely encouraged him and she brought up Minoo and his younger brother Hoshang up single handedly amidst lots of problems really well.

Minoo loves to make Maths easy for kids and even grownups. He elaborates with more examples:

36 multiply 11=396

68 multiply 11=748

When we multiply 36 and 11, just write 3 and 6 leaving some space and add 3 and 6 to get 9 and the answer 396. And for 68 times 11 write 8 for the last digit of the answer and adding 6 and 8 we get 14 so write 4 and carry over 1 and add to 6 to get 7 and the answer 748.

With such fabulous and easy tricks; Minoo questions WHY FEAR NUMBERS? Fast Calculations really helps. One must not be dependent on calculators or mobile for small things. Minoo never keeps numbers in his cell phone saved as he is confident he can remember anyone's number and straight away call when he has to. A firm believer in Never Give Up Attitude; Minoo today knows Maths Tables up to One Crore and remember Cube Roots up to 100 Crores (1 Billion); can also multiply huge figures mentally at amazing speeds; can tell you the day a person is born if you tell him your Date of Birth. E.g 19th October 1985 was a Saturday and many more such skills.

Minoo has performed over 850 Mathemagic Shows. He has performed abroad 11 times which includes 7 visits to Sri Lanka and once to USA, Canada, Spain and Indonesia besides performing in various parts of India like Ahmedabad, Bangalore, Chennai, Kerala, Kolkata, Rajkot, Lonavala, Navsari and Dharampur.

Minoo is the second Indian after General Sam Manekshaw to be conferred the prestigious Honorary Membership of the Rotary Club of Bombay Hills South. He has been featured in over 90 Newspapers and come over 10 times on Television. He has written over 40 articles on Memory Skills cum Maths Skills in Newspapers.

The whole world is under Coronavirus attack at the moment. Minoo is extremely saddened to see people all around the globe succumb to the pandemic. Over 8,00,000 people have lost their lives. Being a very emotional person; Minoo is very

unhappy about it and stresses the importance of staying **POSITIVE MINDED** and be brave. Acknowledge that there is a **CRISIS** and overcome it. For Minoo **CRISIS** means:

C— Create new choice and skills and thoughts

R— Rewrite your passions

I— Introspect your mind, body and soul.

S— Stretch yourself to the fullest

I — Innovative ideas and inspire yourself.

S— Synergize your positive strength

Minoo is positive that the **MUMBAI, MAHARASHTRA, INDIA** and the **WHOLE WORLD** will survive and the Coronavirus phase will go away soon.

Minoo Jokhi is a friendly teacher. Children love his classes a lot. He conducts classes in Memory-Development, which is his specialty where he has various levels of Memory Enhancement Techniques Courses and also teaches Personality-Development, Public Speaking and Mathematics. He also is a Numerologist and provides Numerology Consultations. His future plans include writing books on Memory-Development and Acting and Modelling. He has acted in the T.V.Show Nagin 3 playing the role of a Pandit. He has also acted in Short Films.

Minoo is also a talented cricketer and has played Cricket matches too. He was interviewed by ALL INDIA RADIO very recently twice in 2019 and 2020. He despite all the struggles, trials and tribulations is very optimistic about life. The best thing about this Mathemagician is that he is hungry to learn constantly and is very adaptable. He is a brilliant public speaker having won 15 first prizes, is an LIC Agent, has been a Green Belt in Karate and is an avid Yoga Performer. He has also made a name for himself in Lawn Tennis where he has won various trophies at the club level. He has also run in 21 kilometres and 11 kilometres Marathon successfully.

Talking more about Maths; Minoo trains students to learn Tables, Squares, Cubes all with ease. He demonstrates an observation:

12 times 12= 144.

21 times 21= 441.

And

13 times 13= 169

31 times 31 = 961

Minoo can be contacted on 9821407519 by anyone who desires his services. His email is minoojokhi@rediffmail.com He also has a website:www.minoojokhi.in His facebook page and youtube channel are both by his name : Minoo Jokhi
