

The famed Parsi Mathematician, Maths Trainer and Jame columnist, Minoo Jokhi, who has performed hundreds of Mathemagic programmes and enthralled audiences of all ages, added another feather to his cap. Minoo travelled to Bangalore from November 28-December 6, 2023 and performed 8 Mathemagic Shows for Maxwell Public School, Little Angel School, St. Joseph School, Rotary Bangalore South Parade, a joint meeting programme of Rotary Bengaluru South End and Rotary Bangalore Spandana, Rotary School in Channapatna, joint program for Government High School, Bhagini Nivedita School and Gandhi Smaraka High School kids and for St. Vincent Pallotti

## Mathematics MAGIC!

College.

Minoo, during in these eight shows, interacted with hundred of kids and grownups and taught useful Maths tricks of tables and multiplications and even prime numbers and in memory enhancement sessions demonstrated that memory can increase (not decrease) with age. The children

loved Minoo immensely and were amazed at the way Minoo beat the calculator in saying the tables of any 3 digit number faster than the calculator and many of those who were weak in Maths saw in Minoo a great inspiration.

This was Minoo's third visit to Bangalore, having been there in 2015 and 2017. Being a devout Zoroastrian, Minoo during this trip also visited Bangalore Parsi Agiary and thanked Ahura Mazda for everything. He is eternally grateful to his mother, Kety, who single handedly raised him and his younger brother, Hoshang, amazingly well. Minoo is determined to continue to spread the joy and knowledge of 'Mathemagic' and his life goal to remove maths fear from children and adults.
