Letter of Appreciation

On 2<sup>nd</sup> December 2023, Mr Minoo Jokhi, a well-known Mathe-Magician, Numerologist and memory enhancement practitioner, conducted a workshop at our school for the middle school students. The topic was: "Mathemagic and Memory Development".

Mr Jokhi engaged the students for nearly 1.5 hours by conducting interesting activities like remembering Prime Numbers, Tables, Date of Birth, Multiplication, etc. His knowledge, expertise and student friendly approach really helped our students to learn and understand some of the Mathematical concepts and their applications in a fun-filled way. Students also liked the technique of Jnana Yoga useful in improving concentration.

Students thoroughly enjoyed the session and found it useful. They also got involved and asked many questions.

Management and staff of Rotary School Channapatna would like to appreciate and thank Mr Minoo Jokhi for the excellent workshop. We wish him best in his future endeavours. We look forward to arranging more such workshops by him in the years to come.
